Risks and concerns :

As with all investments, investors should be aware that there are risks associated with an investment in the Company. These risks could result in loss of income or capital investment. Investors are encouraged to seek independent financial advice in this regard.

Industry Risk

Entry of new competitors may increase the market competition and may adversely affect the profitability of Fu-Wang Foods Limited.

Management Perception

Food business is a Distribution Intensive Business. FWFL currently has 8 branch offices and 500 distributors/dealers over the country. It may be difficult for a new company to establish such a wide distribution network in a short period of time. Therefore it is difficult and time consuming for a new entrant to quickly establish itself in the market and grab market share from us.

Moreover, food business is brand-dependent business. FWFL Food is asked by the consumers by its brand name. The company is continuously concentrating on a "pull" strategy instead of "push". To this end, FWFL spends a large amount of fund for promotion and advertisement to further enhance and strengthen its brand name.

Interest Rate Risks

Interest rate risk is concerned with borrowed funds of short term and long term maturity. Considering of money market and decreased of demand for loans/investments, increase current liquidity position have down the rate of interest in recent time.

Management Perception

The Management of the Company is always aware of interest rate. If the interest rate increases the cost of fund will increase, affecting profitability adversely.

Exchange Rate Risk

Exchange rate fluctuation may reduce the profitability of Fu-Wang Foods Limited because of its foreign trade commitments from various sources of foreign exchange like import raw materials and machineries.

Management Perception

FWFL is able to pass on the additional cost of raw material through price increase. Its brand name allows it to increase its price without much difficulty. Competitors may also increase their price if the raw material prices increase.

Market and Technology related Risk

In the global market of 21st century, developed technology obsoletes the old service/ product strategy. So the existing technology may not be efficient enough to cope up with the future trend and needs.

Management Perception

FWFL continuously upgrades its machines and technology. So the risk of obsolete technology is mitigated as the company continuously upgrades its technology every 5-6 years. Our proposed expansion program will be availed for latest technology.

Changes in Economic & Political Condition

Changing economic & Political conditions may affect the demand for the product offered by the company which may effect the turnover and profitability.

Management Perception

Social unrest due to political reasons may cause downturn of the economic activities which will have adverse impact on demands of foods.

Energy Costs may raise

Due to the adverse power situation in the country, production may be hampered due to interruption of power supply which may result is higher production wastage and lower productivity.

Management Perception

The Company is self sufficient in generating power by its own generators. However, in case of gas shortfall and subsequent rationing if any, then the productivity will be reduced. In that scenario, the overall sector will be affected.

History of non-operation, if any

Fu-Wang Foods Limited is a food processing industry with yearly production capacity of 10,900 M.Ton in three shifts as against which it run at 53.03% capacity during the year under review, producing 5,780.82 M.Ton in the fiscal year compared to last year 8,486.52 M.Ton. The shortfall in utilization of production capacity is for time lost for maintenance of machinery and for shortage of market demand.

Management Perception

Fu-Wang Foods Limited was incorporated on 17 February, 1997. It has already completed more than 20 years of successful operation. It has no record of operation failure yet and chances of non-operative in future is very remote.

The demand was made by the Deputy Commissioner, Customs Excise & VAT, Gazipur Division through his Memo No.-4/mushak/74/food/97/1400 dated 25-04-2001. The company preferred appeal on 08.12.2001 against demand.

The Appellate Authority reduced the demand to Tk. 7,838,832. The company, on 19-04-2003 filed second appeal before the Learned Appellate Tribunal. The Learned Appellate Tribunal confirmed the demand through order dated 23-12-2004.
