DIRECTORS' REPORT

for the year ended 30 June 2023

Dear Shareholders,

Assalamu Alaikum.

It is an immense pleasure to welcome you all in the 27th Annual General Meeting of Fuwang Foods Ltd. (FWFL). It gives a great satisfaction to present the Annual Report of the company along with the Audited Financial Statements for the year ended 30 June 2023 and the Auditors' Report thereon.

This report has been prepared in compliance with section 184 of the Companies Act 1994 and Bangladesh Securities and Exchange Commission Notification No. BSEC/CMRRCD/2006-158/207/Admin/80 dated 03 June 2018. The annual report also reflects the overall performance of the company for the year ended 30 June 2023.

Principal Activities

The principal activities of the company continued to be manufacturing and marketing of bread, biscuits, noodles, snacks, mini-snacks, chocolates, energy drinks and other food items to customers through country sales network.

Business Review

Fuwang Foods has navigated another demanding year marked by diverse accomplishments. Following its acquisition by the Japanese firm Minori Co. Ltd. in February 2022, the company has successfully operated under the banner of its subsidiary, Minori Bangladesh Ltd. However, since the transition, Minori has had to go through tough challenges, including the ongoing Ukraine-Russia conflict, which has had a profound impact on Bangladesh's overall economic situation and our business as well. The prices of raw materials surged significantly during this period. Nevertheless, the operational management team has exerted their utmost effort in achieving praiseworthy results. As a testament to their hard work, the company's turnover has reached at highest level of Taka 1,151.55 million, representing a remarkable increase of more than Taka 5.0 crore compared to the previous year. Despite the elevated cost of raw materials,

the significant increase in turnover has led to a gross profit of Taka 183.69 million. It is Taka 13.94 crore higher than the previous year's gross profit, and these results encourage us hope for the turnaround. Additionally, the management analysis, found on page 4, provides a comprehensive overview of the company's affairs and highlights the significant events that transpired during the year.

Our subsidiary company's revenue reached to Tk. 36.80 million which is 9.20% lower from the previous year's revenue of Tk. 40.53 million. Net loss for the year stood Tk. 8.94 million against net loss Tk. 7.46 million of previous year.

Investment in Fuwang Beverage Industries Limited

During the year, Fuwang Beverage Industry Limited remains subsidiary of Fu-Wang Foods Limited. Separate reports including auditors' report, audited financial statements and directors' report thereon for the subsidiary company are provided at the concerned sections of this report. The financial statements of the subsidiary company have duly been consolidated with Fu-Wang Foods Limited, as per requirements of the Companies Act 1994, Securities and Exchange Rules 1987 and related notifications and in line with the International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS).

This year the company passed some challenging situations. The net margin is not in a healthy position due to increased rate of the Gas price fixed by the Bangladesh Government. The rate has been jumped by 66.33% compare to previous year's cost. The price of raw material was also high; the overheard cost was higher than immediate preceding year due to new recruitments and surge of fuel price. The negative growth in net margin also reached to an undesirable level. However, the new management is sincerely trying hard to overcome the situation and request all our honorable shareholders for their endurance.

Property, Plant and Equipment

In the fiscal year under review, the Company allocated a total of Taka 39.22 million toward investments in Property, Plant and Equipment. Details regarding the changes and fluctuations in the value of these assets throughout the year can be found in the corresponding notes within the Financial Statements. These notes provide a comprehensive breakdown of the movement in property, plant, and equipment for better understanding.

Industry Outlook and Possible Future Developments

In a highly competitive business environment in food industry, competitors continuously pursue market shares with various activities including price reduction, quality improvement, new product line and other incentives. Fuwang Foods Limited has continued retaining its position by offering superior quality products at competitive prices.

Fuwang Foods Ltd. (FWFL) is one of the prominent figure in the food manufacturing industry in the country. Renowned as a

high-quality food brand in Bangladesh, 'Fuwang' enjoys recognition among a substantial portion of the middle to lower income demographic, which constitutes the primary target audience for most of the company's products. The food industry is especially distribution-driven, and FWFL currently possesses six branch offices, ten depots, and a network of 460 distributors and dealers spread across the country.

As a company, we are dedicated to pursuing market leadership and have strategic plans for expanding our product line in the upcoming year, including the introduction of new, exclusive items. Our Board of Directors is diligently working towards enhancing profitability. In line with our diversification policy, Fuwang Foods continually responds to market demands by introducing new products. In the current year, we successfully launched two new items, one under the biscuit category and the other item known as 'Muri'. We greatly value your continued support and remain highly optimistic about delivering positive results in the near future.

Segment-wise or product-wise performance:

Description	Taka-2023 Net revenue	Taka-2022 Net revenue	Increase/Decrease over last year	
			Amount Tk.	%
1. VAT-able Items	389,907,721	450,163,900	-60,256,179	-13.39%
2. Non-VAT-able Items	761,642,351	650,773,276	110,869,075	17.04%
TOTAL	1,151,550,072	1,100,937,176	50,612,896	4.60%

Notable that VAT-able items are Cake, Biscuits, Chocolate, Toasts and others while the non VAT-able Items are only Bread products. Details are also disclosed in Annexure-C.

Risks and concerns:

As with all investments, investors should be aware that there are risks associated with an investment in the company. These risks could result in loss of income or capital investment. Investors are encouraged to seek independent financial advice in this regard.

Industry Risk

This year new opponents have entered, as a result market competition increase significantly and may adversely affect the profitability of Fu-Wang Foods Limited.

Management Perception:

Food business is a Distribution Intensive Business. FWFL currently has 6 (six) branches offices 10 (ten) depots and 460 distributors/dealers over the country. It would be challenging for a new company to establish such a wide distribution network in a short period of time. Therefore it is almost impossible and cumbersome for a new entrant to quickly establish itself in the market and grab market share from us.

Moreover, food business is a brand-dependent business. FW Food is inquired by the consumers due to its brand name. The company is continuously concentrating on a "pull" strategy instead of "push". To this end, FWFL spends a large amount of fund for promotion and advertisement to further enhance and strengthen its brand name.

Interest Rate Risks

Interest rate risk is concerned with borrowed funds of short term and long term maturity. Considering money market and increase of demand for loans/investments, increase current liquidity position effected the rate of interest in recent times.

Management Perception:

The Management is consistently aware of the prevailing interest rate. If the interest rate hikes, it is expected the cost of fund will rise, affecting profitability adversely. However as per Bangladesh Government consideration new rate of Bank interest has already been affected.

Exchange Rate Risk

Exchange rate fluctuation may reduce the profitability of Fu-Wang Foods Limited because of its foreign trade commitments from various sources of foreign exchange like imported raw materials and machineries. Due to the war in Ukraine Bangladesh is passing harsh time in exchange rate.

Management Perception:

FWFL is able to pass on the additional cost of raw material through necessary price increases. Its brand name also to increase its price without much difficulty. Competitors may also increase their price if the raw material prices increase.

Market and Technology related Risk

In the global market of 21st century, developed technology obsoletes the old service/product strategy. So the existing technology may not be efficient enough to cope up with the future trend and needs.

Management Perception:

FWFL continuously upgrades its machines and technology. Recently new machineries also introduced in the factory. Therefore, the risk of obsolete technology is mitigated as the company

continuously upgrades its technology every 5-6 years.

Social unrest due to political reasons may cause downturn of the economic activities which will have adverse impact on demands of foods.

Energy Costs may raise

Due to the adverse power situation in the country and shortage of Gas supply the production may be hampered. The interruption of utility shortages or increased rate of energy cost may result in higher production cost and lower productivity.

Management Perception:

The Company is self-sufficient in generating power with its own generators. However, in case of gas shortfall and subsequent rationing if any, the productivity will be reduced. In that scenario, the overall sector will be affected. In this fiscal year the gas price is increased significantly by 66.33% compare to preceding year!

History of non-operation, if any

Fuwang Foods Limited is a food manufacturing industry with yearly production capacity of 11,118 M. Ton in three shifts as against which it could operate at 57% capacity during the year under review, producing 6,290 M. Ton in the fiscal year compared to last year 8,008 M. Ton. The production capacity utilization has been decreased by 21.45% from last year.

Management Perception:

Fu-Wang Foods Limited was incorporated on 17 February, 1997. It has already completed more than 26 years of successful operation. It has no record of operation failure yet and chances of being non-operative in the future is very remote.

Discussion on Cost of Goods sold, Gross Profit Margin and Net Profit Margin

During the financial year, the company revenue boosted significantly, it increased by Taka 50.61 million. This positive trend was further reinforced by an 8.40% reduction in the Cost of Goods Sold, resulting in a substantial 15.95% increase in gross profit compared to the previous year's 4.02% which was due to impairment of fixed assets of last fiscal year. However, despite this encouraging growth in gross profit, it fell short of covering the company's operating expenses.

As a consequence, the company ended the fiscal year with a net loss of Taka 54.46 million. The following are key variances in the financial year:

Particulars	30 June 2023 (Taka)	30 June 2022 (Taka)	Increase/(Decrease)	Increase/(Decrease)
			(Taka)	%
Revenue	1,151,550,072	1,100,937,177	50,612,895	4.60%
Cost of Goods Sold	967,864,910	1,056,647,868	-88,782,958	-8.40%
Gross Profit	183,685,163	44,289,308	139,395,855	314.74%
Net Profit/Loss after Tax	-54,463,048	-243,287,316	188,824,268	-77.61%

Reasons for increase / Decrease of

- Revenue
- Cost of Goods sold
- Gross Profit
- Net Profit

Increase of Revenue

During the year 2022-2023 revenue increased by an amount of Taka 50,612,895. The reason for increased turnover is changes in sales policy, recruitment of new sales force. Moreover, supervision and monitoring started vigorously. Human resources of the company have been motivated significantly which also help to boost the sale. Therefore, consumers' confidence increased and they didn't reduced buying products which help the company increasing turnover.

Increased percentage of Cost of Goods Sold

During the year, Cost of Goods Sold is 84.05% of the revenue as against 95.98% of the preceding year, which is reduced by 8.40% due to following reasons:

- Increase of Raw Materials cost and
- During the year, there were no impairment issues, similar to the previous year.
- Increased rate of the utilities and more specifically the Gas price increased nearly double
- The utility rates, specifically the gas price, saw a significant increase, almost doubling cost.

The Gross Profit increased

In the financial year, Fuwang Foods Ltd. experienced total Taka 139,395,854 increase in Gross Profit, achieving an 11.93% growth compared to the preceding year. This

development can be attributed to the decrease in the cost of goods sold (COGS) and an increase in turnover.

The Net Profit declined

The net profit has been decreased. It recorded a 4.73% net loss, but actual figure represents an improvement compared to the previous year, which had a significant 22.10% net loss on revenue. The primary cause of this loss can be recognized due to a weak gross margin, which is considerably lower than the operating expenses.

Extra-Ordinary Events

There is no Events of extra ordinary gain or loss during the reporting period of which require adjustments or disclosure in the financial statements. Any such events have already been detailed in the relevant notes accompanying the accounts.

Related Party Transactions

Disclosure of all related party transactions, including basis for such transaction, has been provided in the note 29 of the notes to the financial statements.

Management Discussion and Analysis

Management's Discussion and Analysis of the company's position and operations along with a brief discussion of changes in the financial statements as per condition no 5 (XXV) of Corporate Governance Code dated June 03, 2018.

Distinguished Shareholders,

Assalamu Alaikum,

By the grace of Almighty Allah, Fuwang Foods Limited passed another exciting year. I, on behalf of the Board of Directors feel happy for having this opportunity to welcome you to the 27th

Annual General Meeting and to write few words about the company's performance throughout the financial year 2022-2023. As you know, the current global economic scenario has led us through numerous challenges; beyond the hike of raw material prices, there have been significant changes in the country's overall economic conditions, alongside the financial limitations within the company. However, we are optimistic new changes will bring positive impacts on Fuwang Foods! A brief discussion on company's position and operations shown below.

- (a) (a) Comparative analysis of financial performance or results and financial position as well as cash flows for current financial year

with immediate preceding five years explaining reasons are as follows:

Taka in core

Particulars	2022-2023	2021-2022	2020-2021	2019-2020	2018-2019
Turnover (Net)	115.16	110.09	83.96	79.12	86.76
Gross Profit/ Loss	18.36	4.43	15.35	18.18	23.08
Net Profit/Loss before Tax	-6.27	-22.36	1.91	8.08	13.00
Net Profit/ Loss after Tax	-5.45	-24.33	1.14	6.06	8.65
Shareholders' Equity	31.04	38.36	128.58	129.65	125.76
Total Assets	121.25	119.51	195.49	188.38	182.85
Total Current Assets	68.75	70.51	124.58	120.44	116.80
Total Current Liabilities	83.56	72.66	57.56	49.91	47.33
Current Ratio	0.82	0.97	2.16	2.41	2.47

During the year under review the turnover increased in current year and reached to another level of turnover amounting to Taka 115.09 crore. As the turnover increased the Gross profit is raised to Tk. 18.36 crore which is Taka 13.93 crore higher than previous year's profit Tk.4.43 crore. It is encouraging that the gross profit is increased. However, the operating loss reached to 5.45 crore.

Another reason is the increase of Cost of Goods Sold due to increase of price of main raw materials.

- (b) The company has prepared and presented its financial statement as per applicable IAS/IFRS. The following IAS/IFRSs are applicable for the financial statements for the period under review:

Compliance of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS)

	IAS/IFRS
Presentation of financial statements (IAS)	1
Inventories (IAS)	2
Statement of cash flows (IAS)	7
Accounting policies, changes in accounting estimates and errors (IAS)	8

Revenue from contracts with customers (IFRS)	15
Leases (IFRS)	16

(c) There is no changes in accounting policies and estimation during the preparation of financial statements for the year ended June 30, 2023

(d) Bangladesh Economy reeling under Russia-Ukraine war impact. We already know that the world, after overcoming the pandemic, supply chain reversal and price hike, is now faced with the worst human and economic catastrophe due to Russia-Ukraine war. As we have trade relations with both countries and key ingredients, raw materials of our products also imported, therefore, the gross margin for the year also effected badly.

(e) Risks and concerns have both internal and external issues of any company. Investors should aware that there are risks associated with the company. This year new competitors have entered, as a result market competition increase significantly. However, the Food business is a Distribution Intensive Business. Fuwang Foods Limited has distribution network throughout the country. It is very cumbersome for a new competitor to quickly establish itself in the market and grab market share from us. Another risk company facing is uninterrupted supply of gas. Low pressured gas sometimes enforces the factory to run slow. We are scrutinizing unconventional method to mitigate the issue. However, within very short span of time we tried to do our best and continued to run the factory operation smoothly. During this difficult and challenging time period factory production as well as turnover has increased significantly.

(f) Factory production depends largely on the utilities, especially on Gas supply. As you know current condition of the gas supply is under pressure. Moreover, during this fiscal year the

gas price is increased significantly by 66.33% compare to last year!

We have focused more on improving the quality of the production process and increase the sales. As you we already declared and paid an Interim Cash Dividend @ 0.50% of the paid-up capital amounting Taka 55,41,964. However, at the end of financial year a net loss of taka 5.45 crore it was incurred. Considering the realistic situation of the company; Board of Directors was not in a position to declare any dividend for this year.

Fuwang Foods is one of the significant brands in the country and we are striving hard to increase the annual turnover and profitability. As part of our proactive product diversification policy, we have always been introducing new products to cater to the changing demands of the market.

I would like to mention the continuous support, guidance and access that our national regulatory and financial institutions have extended to us. The encouraging cooperation from Bangladesh Securities and Exchange Commission (BSEC), Dhaka Stock Exchange and Chittagong Stock Exchange, all of our Banks acted as the crucial element behind the smooth and effective execution of our business operations. At the end I would like to thanks our Board of Directors, employees and staff for their hard work, vendors, suppliers, well-wishers, valuable customers and shareholders without their relentless trust and loyalty in our brand, Fuwang Foods Ltd. would not have been here today.

With best regards,

Rafiqul Hasan Khan
Managing Director

Independent Auditor's Report to the Shareholders Of Fu-Wang Foods Limited and its Subsidiaries

Report on the Audit of the Consolidated and Separate Financial Statements

Qualified Opinion

We have audited the consolidated financial statements of Fu-Wang Foods Limited and its subsidiary Fu-Wang Beverage Industries Limited (the Group) as well as the separate financial statements of Fu-Wang Foods Limited (the 'Company') which comprise the consolidated and separate statements of financial position as at 30 June 2023, and the consolidated and separate statements of profit or loss and other comprehensive income, consolidated and separate statements of changes in equity and consolidated and separate statements of cash flows for the year then ended and notes to the consolidated and separate financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the consolidated financial position of the Group and the separate financial position of the Company as at 30 June 2023, and of its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Qualified Opinion

- i. **Refer to Note-9.04**, Share money deposit of BDT. 20,000,000 was injected on 29th March 2023 as per the instruction of BSEC vide letter no. SEC/SRMIC/2000-922/28 dated 20th January 2022. In the above letter, it is said that for the purpose of the compliance of 30% requirement of holding of shares by the Board of Directors, the company shall obtain consent of the Commission for raising capital against share money deposited or collected. Also as per Circular No. 146/GdAviwm/c^akvt/c^aAvcb/ 2020/01 dated 11 February 2020 issued by the Financial Reporting Council (FRC), the amount should have been legally converted into Share Capital within a maximum of 06 (Six) months of such received. However, the company has not yet converted its Share Money Deposit of BDT. 20,000,000 till 26th October 2023 or applied to BSEC for their consent for share issue.
- ii. **Refer to Note- 16**, Payable for WPPF and Welfare Fund of BDT. 21,888,533, as per section-234 of Bangladesh Labor Act, 2006, a company is to pay 5% of net profit of the year within 9 months of following the close of year at the proportion of 80:10:10 to the Participatory Fund, Welfare Fund and Workers Welfare Foundation Fund respectively. The company has not made any payments against Workers' Profit Participation Fund (WPPF) during the year. Management also stated that since the inception of WPPF, no payment was made to the Workers Welfare Foundation Fund.
- iii. **Refer to Note-10**, 'Current Liabilities and Provision', for the subsidiary, BDT 40,100,000 was reported as 'Deposit against share by holding company' in the financial year 2020-21, which was transferred as a liability with the holding company in Note-10 'Current Liabilities and Provision' in the financial year 2021-22. As per gazette # 146/GdAviwm/c^akvt/c^aAvcb/ 2020/01 dated 11th February 2020, any money received as Share Money Deposit (SMD) or whatever name, included in the Equity, is not refundable. The money received under SMD should be converted into Share Capital within 6 months of receipt of the money. However, it is reported by management that as no receipt of money from the holding company against the said shares was evident, it is adjusted as an intercompany transaction. Also, despite the figure is constant for over 12 months, the figure is reported as current assets and current liabilities instead of non-current liabilities/assets.

- iv. **Refer to Note-10(a)**, Retained Earnings of BDT. 1,031,798,912, adjustment of tax liability claim during the year of BDT. 19,833,688 is charged as prior year adjustment to retained earnings instead of charging in the statement of profit or loss and other comprehensive income. Had it been charged in the statement of profit or loss and other comprehensive income of current year, Earnings Per Share (EPS) would have been reduced by BDT. 0.18 per share. Hence, the EPS is overstated by the mentioned figure.
- v. **Refer to Note-7.01**, Advance against Purchase of BDT. 59,436,209, includes a figure of BDT. 39,531,147 as balance brought forward from previous year. On inquiry to management, no descriptive clarifications were provided for the same. Also, no supplier-wise list was available for the same. Hence, the above-mentioned figure remains unverified and unconfirmed.
- vi. **Refer to Note-27(a)**, Earnings Per Share (EPS) of BDT. (0.57) per share, share money deposit of BDT. 20,000,000 during the year was not considered in the calculation; whereas, as per gazette # 146/GdAviwm/c³kvt/c³Avcb/ 2020/01 dated 11th February 2020, any money received as Share Money Deposit (SMD) or whatever name is to be considered as Potential Share Capital and to be incorporated in the calculation of EPS.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and Bangladesh Securities and Exchange Commission (BSEC), and we have fulfilled our responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of Matter

Without qualifying our opinion, we draw attention to the following matters:

- i. **Refer to Note-9.03**, 'Composition of Shareholders' of the financial statements, which describes, as per Gazette notification no: BSEC/CMRRCD/2009-193/217/Admin/90 dated 21 May 2019, all sponsors and directors other than independent directors of a company listed with any stock exchange shall all time jointly hold minimum 30% (thirty percent) shares of the paid-up capital of the company. Whereas as at 30 June 2023, sponsor shareholders at the company holds only 7.85% of the total paid-up capital.
- ii. **Refer to Note-14**, Short Term Bank Loans and Others, includes a temporary loan from the Ex-Managing Director of BDT. 16,580,000 at the year-end, for which no resolutions of the Board of Directors was evident. Although this remains unchanged for over 12 months, it is reported as current liability, instead of non-current liability; a non-compliance of IAS 1.
- iii. **As per section 99** of Bangladesh Labor Act 2006 (as amended in 2018), for an establishment with 100 permanent workers, the employer is to arrange group insurance for its employees. The company has not introduced any group insurance for its employee; a non-compliance of the Bangladesh Labor Act.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below our description of how our audit addressed the matters provided in that context.

Short-term bank loans and Long-term loan

See note no 13.00 and 14.00 to The Financial Statements

Key Audit Matter	How the matter was addressed in our audit
At reporting date, the position of loans remained (both short term and long term) amounting to BDT. 186,516,866 for both the Company and the Group. In other words, 15.40% of total liabilities for both the Company and the Group are represented by loans. Evidently, the Company is using loans to operate the business. Therefore, it has been considered as key audit area.	<p>We obtained an understanding, evaluated the design and tested the operational effectiveness of the Company's key controls over the loans. Our audit procedures included:</p> <p>among others, the followings:</p> <ul style="list-style-type: none"> • Understanding and reviewing the nature and types of loans; • Reviewing the board minutes for arrangements of the loans; • Obtaining the repayment schedules, loan statements and facility offer letters to review terms, debt covenants, interest rates and other conditions associated with the loans; • Reviewing the mortgages, major covenants, guarantees and interest rates etc. attached to the loans; • Recalculating the interest related to loans; • Checking the adjustments or repayments of loans through bank statements as per repayment schedule; • Checking whether there is any overdue payments and penal interests; and <p>Finally, assessing the appropriateness and presentation of disclosures against relevant accounting standards.</p>

Investments in subsidiaries of the Company and its impairment

See Note No 4.00 to the Financial Statements

Key Audit Matter	How the matter was addressed in our audit
<p>The Company has investments amounting to BDT. 9,800,000 on 30 June 2023 held at cost less impairment that represents 1% of the Company's total assets.</p> <p>At the time of conducting our audit of the separate financial statements of the Company we have considered the recoverable value of the Company's investments in Fu-Wang Beverage Industries Limited at cost. Management has conducted impairment assessment and calculated recoverable value of its subsidiary in accordance with IAS-36.</p>	<p>In particular, our discussions with the Management were focused on the continued appropriateness of the value in use model, the key assumptions used in the model, the reasonably possible alternative assumptions, particularly where they had the most impact on the value in use calculation.</p> <p>We also checked mathematical accuracy of the model, recalculated discount rate used within the model, inputs used in the determination of assumptions within the model were challenged and corroborating information was obtained with reference to external market information, third-party sources.</p>

**Other Information**

Management is responsible for the other information. The other information comprises all of the information in the Annual Report but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with IFRSs, the Companies Act, 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit

procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and Company's internal control

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated and separate financial statements. We are responsible for the direction, supervision and performance of the Group and the Company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994 and the Securities and Exchange Rules, 1987 and relevant notifications issued by Bangladesh Securities and Exchange Commission, we also report that except for the effects of the matters described in the Basis for Qualified Opinion section of our report:

- a) We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

- b) In our opinion, proper books of account as required by law have been kept by the Group and the Company so far as it appeared from our examination of those books;
- c) The consolidated and the separate statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account; and
- d) The expenditure incurred was for the purpose of the Group's and Company's business.

- (e) Notes, comprising summary of significant accounting policies and other explanatory information.

2.1.6 Functional and presentation currency

Functional and presentation currency items included in these financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). These financial statements are presented in Bangladesh Taka ("BDT") which is also the functional currency of the company.

The amounts in these financial statements have been rounded off to the nearest BDT except otherwise indicated.

2.1.7 Use of estimates and judgments

The preparation of financial statements in conformity with International Financial Reporting Standards and International Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and for contingent assets and liabilities that require disclosure, during and at the date of the financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions of accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected as required by IAS 8: **Accounting Policies, Changes in Accounting Estimates and Errors**.

2.1.8 Materiality, aggregation and offsetting

Each material item as considered by management significant has been displayed separately in the financial statements. No amount has been set off unless the Company has legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards. The values of assets or liabilities as shown in the statement of financial position are not off-set by way of deduction from another liability or asset unless there exist a legal right therefore. No such incident existed during the year.

2.1.9 Going concern assumption

As per IAS-1 para 25, a company is required to make assessment at the end of each year to assess its capability to continue as a going concern. Management of the Company makes such assessment each year. As per management assessment there is no material uncertainties related to events or conditions which may cast significant doubt upon the Company's ability to continue as a going concern.

2.1.10 Reporting period

The reporting period of the company covers 12 months from 01 July 2022 to 30 June 2023.

2.1.11 Comparative information

Comparative information has been disclosed in respect of 01 July 2022 to 30 June 2023 in accordance with IAS 01: **Presentation of Financial Statements** for all numeric information in the financial statements and also the narrative and descriptive information where it is relevant for understanding of the current periods of financial statements. Prior year figure has been rearranged wherever considered necessary to ensure comparability with the current year.

2.2 Significant accounting policies

2.2.1 Property, plant and equipment

Recognition and measurement

An item shall be recognized as property, plant and equipment if, and only if it is probable that future economic benefits associated with the item will flow to the entity, and the cost of the item can be measured reliably. Property, Plant and Equipment are stated at their cost (Fair value for Building & other construction) less accumulated depreciation in accordance with IAS 16 "Property, Plant and Equipment".

The cost of an item of property, plant and equipment comprises its purchase price, import duties and non-refundable taxes, after deducting trade discount and rebates, and any costs

directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the intended manner. The cost also includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term debt availed for the construction/ implementation of the Property, Plant and Equipment, if the recognition criteria are met.

The cost of self-constructed assets includes the cost of material and direct labor and other costs directly attributable to bringing the assets to a working condition inclusive of inward freight, duties and non-refundable taxes for their intended use.

Subsequent costs

The subsequent expenditure is only capitalized as part of assets when the useful life or economic benefit or both of that asset is increased provided that it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of day to day servicing of property, plant and equipment are recognized in the Statement of Profit or loss and Other Comprehensive Income as 'Repair and Maintenance' when it is incurred.

Depreciation on Non-current assets

Depreciation is provided to amortize the cost of the assets after commissioning, over the period of their expected useful lives, in accordance with the provision of IAS 16 Property, Plant and Equipment. Depreciation is charged on additions made during the year for the full year in which those assets are put into ready for use and on which depreciation is charged on Straight line basis. Depreciation is charged on all the fixed assets except land and land development cost at the following rates according to the estimated life disclosed in the valuation report.

Categories of Property, Plant & Equipments	Rate of Depreciation
Factory and Head office building	2.50 to 5%
Plant and machinery	5%
Office equipment	20%
Furniture and Fixtures	10%
Motor vehicles	10%
Other assets	10% to 20%

Depreciation methods, useful lives and residual values are reviewed after each reporting period.

Revaluation of property, plant and equipment

As per IAS 16: Property, Plant and Equipment paragraph 34, "the frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Some items of property, plant and equipment experience significant and volatile changes in fair value, thus necessitating annual revaluation. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. Instead, it may be necessary to revalue the item only every three or five years".

Impairment

The carrying amounts of property, plant and equipment are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated to determine the extent of the impairment loss, if any. Impairment loss is recorded on judgmental basis, for which provision may differ in the future periods based on the actual experience.

**Disposal of property, plant and equipment**

An item of Property, Plant and Equipment is removed from the statement of financial position when it is disposed of or when no future economic benefits are expected from its use or disposal. The gain or loss on the disposal of an item of Property, Plant and Equipment is included in the statement of profit or loss of the period in which the de-recognition occurs.

2.2.2 Trade and Other Receivables

This is considered good and collectible and therefore, no amount was written off as bad debt and necessary provision is made for bad debts.

2.2.3 Advance, Deposits and Prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to the statement of profit or loss and other comprehensive income.

2.2.4 Inventories

Inventories comprise raw material, finished goods and packing materials which are stated at the lower of cost and net realizable value on consistent basis in accordance with IAS 2. Net realizable value is based on estimated selling price less any further costs expected to be incurred for completion and disposal.

2.2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds as per IAS 23: **Borrowing Costs**.

2.2.6 Authorization date for issuing financial statements

The financial statements were authorized by the Board of Directors on 28 October 2023 for issue after completion of review.

2.2.7 Revenue from contract with customers

The Company recognizes as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange of services when (or as) it transfers control to the customer. To achieve that core principle, IFRS-15 establishes a five-step model as follows:

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognize revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognizes revenue when (or as) the Company satisfies a performance obligation by transferring a promised service to a customer. Service is considered as transferred when (or as) the customer obtains control of that service. Revenue from sale of service is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT). Where the amounts received or receivable from customers exceeded the revenues recognized for contracts,

contract liabilities or advance billings are recognized in the statement of Financial Position as Unearned Revenue. Contract liabilities or advance billings are recognized as revenue when services are provided to customers satisfying the performance obligation.

2.2.8 Leases

Financial Reporting Principles **IFRS 16: Leases** effective from annual periods beginning on or after January 1, 2019 has significantly changed how the company accounts for its lease contracts. Before the adoption of IFRS 16, all lease contracts were classified as operating leases. IFRS 16 requires all contracts that contain a lease to be recognized in the statement of financial position as a right-of-use asset and lease liability. Only certain short-term and low-value leases are exempt. In such cases the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis in the statement of profit or loss and other comprehensive income

The company has rental agreements & Four motor vehicles purchase on installment basis, In compliance with the standard, the company has elected to recognize right of use assets and lease liabilities.

2.2.9 Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and with banks on current accounts and deposit accounts which are held and available for use by the company without any restriction. There is insignificant risk of change in value of the same.

2.2.10 Proposed Dividend

Propose dividend in cash is considered as "Liability" in accordance with the provisions of the Companies Act, 1994, the Securities and Exchanges Rules, 1987 and IAS 10 "Contingencies and Events Occurring After the Balance Sheet Date". IAS 10 (original version) provides that "dividend proposed or declared after the balance sheet date but before approval of the financial statements should be either adjusted for or disclosed".

2.2.11 Interim dividend

The Company had declared and paid 0.50% cash dividend on half yearly audited profit.

2.2.12 Earnings Per Share (EPS)

Earnings Per Share (EPS) are calculated in accordance with the International Accounting Standard IAS

33: Earnings Per Share, which has been shown on the face of statement of comprehensive income and the computation of EPS is stated in Note-27.

Basic earnings

This represents earnings for the year attributable to ordinary shareholders. As there was no preference dividend, minority interest to extra ordinary items, the net profit for the year has been considered as fully attributable to the ordinary shareholders.

Basic earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary equity holders of the entity by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share

For the purpose of calculating Diluted earnings per shares, an entity adjusts profit or loss attributable to each ordinary equity holders of the entity, and weighted average number of shares outstanding, for the effects of all dilutive potential ordinary shares. Diluted EPS is only calculated where the company has commitment to issue ordinary share in future at reporting date.

No diluted EPS is required to be calculated for the year as there was no scope for dilution during the year under review

2.2.13 Foreign currency transactions

Transactions denominated in foreign currencies are translated into Bangladesh Taka and recorded at rates of exchange ruling on the date of transaction in accordance with IAS 21 "The Effects of Changes in Foreign Currency Rates".

2.2.14 Employee benefits

The company maintains defined contribution plan for its eligible permanent employees. The eligibility is determined according to the terms and conditions set forth in the respective trust deeds and rules. The plan is funded and recognized/approved under Income Tax Ordinance 1984.

(a) Defined contribution plan (Provident fund)

The Company operates a contributory provident fund for its permanent employees. Provident fund is administered by a Board of Trustees and is funded by contributions partly from the employees and partly from the Company at pre-determined rates. These contributions are invested separately from the Company's assets.

(b) Defined Benefit Plan (Gratuity)

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The employee gratuity plan is considered as defined benefit plan as it meets the recognition criteria. The company's obligation is to provide the agreed benefits to current and former employees.

2.2.15 Accruals, provisions and contingencies

(a) Accruals

Accruals are liabilities to pay for services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amounts due to employees. Accruals are reported as part of Trade and other payables.

(b) Provisions

A provision is recognized in the statement of financial position when the company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the reporting date. Where the company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. During the reporting period the company has made sufficient provisions where applicable.

(c) Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company; or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future

events not wholly within the control of the company. At the reporting date the company does not have any contingent asset.

2.2.16 Statement of cash flows

The Statement of Cash Flows has been prepared in accordance with the requirements of **IAS 7: Statement of Cash Flows**. The cash generating from operating activities has been reported using the Direct Method and Indirect Method as prescribed by the Securities and Exchange Rules, 1987 and as the benchmark treatment of IAS 7 whereby major classes of gross cash receipts and gross cash payments from operating activities are disclosed.

2.2.17 Related party disclosures

As per International Accounting Standards **IAS 24: Related Party Disclosures**, parties are considered to be related if one of the parties has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Company carried out transactions in the ordinary course of business on an arm's length basis at commercial rates with its related parties. Related party disclosures have been given in Note-64.

2.2.18 Income tax

Income tax expense comprises current and deferred taxes. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity in accordance with **IAS 12: Income Tax**.

(a) Current tax

Taxation is provided in accordance with fiscal regulations applicable. The company is publicly traded company as per the Income Tax Act, 2023. The company qualifies for being treated as a "Publicly Traded Company" for which the rate for tax at 22.50% or minimum Tax rate 0.60% has been applied for while making provision for income tax.

(b) Deferred tax

Deferred tax is recognized as income or an expense amount within the tax charge, and included in the net profit or loss for the period. Deferred tax relating to items dealt with as Other Comprehensive income (such as a revaluation) is recognized as tax relating to Other Comprehensive income within the statement of Profit or loss and Other Comprehensive income.

Taxable Temporary difference

A deferred tax liability is recognized for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of goodwill; or the initial recognition of an asset or liability in a transaction which is not a business combination; and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

Revaluations to fair value – Property, Plant and Equipment

The revaluation does not affect taxable profits in the period of revaluation and consequently, the tax base of the asset is not adjusted. Hence a temporary difference arises. This is provided for in full based on the difference between carrying amount and tax base. An upward revaluation is therefore give rise to a deferred tax liability.

Deductible temporary difference

A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination; and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

2.2.19 Events after the Reporting period

2.2.20 Events after the Reporting period

Events after the reporting period that provide additional information about the company's position at the statement of financial position date are reflected in the financial statements as per International Accounting Standards **IAS 10: Events after the Reporting Period**.

All material events occurring after the balance sheet date have been considered and where necessary, adjusted for or disclosed.

33.00 Financial Risk Management (IFRS 7)

33.01 Introduction

The Company's activities expose it to a variety of financial risks: credit risk, market risk (including interest rate risk and foreign currency risk), and liquidity risk. The Company's risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Company uses derivative financial instruments to economically hedge certain risk exposures.

Financial risk management is carried out by accounts and finance department under policies approved by the Board of Directors. Company finance identifies, evaluates, and hedges financial risks in close co-operation with the Company's operating units. The 'Finance Policy' provides principles for specific areas, such as credit risk, interest rate risk, foreign currency risk, use of derivative financial instruments, and investment of excess liquidity.

This note presents information about the Company's exposure to each of the risks arising from financial instruments and the Company's objectives, policies, and processes for measuring and managing risk. Further quantitative disclosures are included throughout these consolidated financial statements.

33.02 Carrying amounts of financial instruments by category

The following table shows the carrying amounts of financial instruments by category at the end of June 30, 2023:

33.03 Credit risks:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to financial instruments fails to meet its contractual obligations, and arises principally from cash and cash equivalents, time deposits, and trade accounts receivable.

The credit risk with Trade Receivables (see note 06) is limited, as the Company has numerous dealer located in various geographical regions. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each dealer. Credit limits are established for each dealer, whereby the credit limit represents the maximum open amount without requiring payments in advance these limits are reviewed regularly (credit check).

The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the Statement of Financial Position. There are no commitments that could increase this exposure to more than the carrying amounts.

**33.04 Market risks**

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates, and other prices will affect the Company's result or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return on risk.

33.05 Interest rate risk

At the reporting date, the Company had the following interest-bearing financial instruments: cash and cash equivalents, and bank liabilities. All cash and cash equivalents mature or reprise in the short-term, no longer than three months.

Borrowings mainly bear interest at fixed rates. Cash and cash equivalents and borrowings issued at variable rates expose the Company to cash flow interest rate risk.

The Company does not account for any fixed-rate borrowings at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

The Company Finance manages the interest rate risk to reduce the volatility of the financial result as a consequence of interest rate movements. For the decision whether new borrowings shall be arranged at a variable or fixed interest rate, the Company Finance focuses on an internal long-term benchmark interest rate and considers the amount of cash and cash equivalents held at a variable interest rate. Currently, the interest rate exposure is not hedged.

33.06 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Company Finance manages the Company's liquidity to ensure sufficient liquidity to meet all liabilities when due, under both normal and stressed conditions, without facing unacceptable losses or risking damage to the Company's reputation.

Excess liquidity can be invested in instruments such as time deposits, government, and corporate bonds, shares of publicly listed companies, and capital protected instruments.

The following are the contractual maturities of financial liabilities, including interest payments:

Particulars	Carrying amount	Between 1 and 90 days	Between 91 and 360 days	Between 1 and 2 years	Over 2 years

35.00 Capital Expenditure Commitment

There was no capital expenditure commitment as on June 30, 2023

36.00 There was no bank guarantee issued by the company on behalf of their directors or the company itself except bank loan.

37.00 Disclosure as per requirement of schedule XI, Part II of the Companies Act, 1994 and DSE's requirement under Annexure 10 of Schedule A-Para 18 of The Dhaka Stock Exchange (Listing) Regulation, 2015.

Compliances are shown in **Annexure-D** herewith this report.

38.00 Contingent Liability-For VAT:

There was a demand of Tk. 10,473,921 by the Custom & VAT Authority for payment of VAT in excess of the amount paid by the company during the financial year 1998-1999 and 1999-2000. The demand was made by the Deputy Commissioner, Customs Excise & VAT, Gazipur Division through his Memo No.-4/mushak/74/food/97/1400 dated 25/04/2001. The company preferred appeal on 08/12/2001 against demand.

The Appellate Authority reduced the demand to Tk. 7,838,832. The company, on 19-04-2003 filed second appeal before the Learned Appellate Tribunal. The Learned Appellate Tribunal confirmed the demand through order dated 23/12/2004. The company then eagerly filed a Writ Petition 2058 of 2005 before the High Court Division of Hon'ble Supreme Court of Bangladesh. The Hon'ble High Court through its order dated 03/04/2005 stayed the operation of the Tribunal Order till disposal of the writ. This liability of Tk. 7,838,832 is thus contingent upon disposal of the Writ petition and further appeals, if any at all arises. Therefore, Tk. 7,838,832 is the contingent liability pertaining to the period up to June 30, 2023.

38.01 Contingent Liability-For TAX:

Refer to the notes No.32, detailed chart for contingent liability for tax as on 30th June 2023 of Tk.13,20,00438 from inception of the company. All these are in High Court Division of Hon'ble Supreme Court of Bangladesh & Learned Appellate Tribunal & commissioner (Appeal).

39.00 Event after the Balance Sheet Date:

39.01 The Board of Directors in its meeting held on October 28, 2023 has approved the Financial Statements for the year ended 30 June 2023 and recommended no dividend for the all shareholders due to the company suffered loss which is subject to approval by the shareholders at the forthcoming Annual General Meeting (AGM) and authorize the financial statements for issue.

39.02 Except the fact stated above, no circumstances have arisen since the balance sheet date, which would require adjustment to or disclosure in the financial statements or notes thereto.

FU-WANG BEVERAGE INDUSTRY LIMITED

Report of the Board of Directors for the year ended 30 June 2023

Dear Shareholders

In compliance of section 184 of the Companies Act 1994, on behalf of the Board of Directors, I have the pleasure to submit this report along with Audited Financial Statements containing Statement of financial Position, Statement of Profit or Loss & other Comprehensive Income, Statement of Change in Equity and Statement of Cash Flows for the year ended on 30 June 2023 at this 18th Annual General Meeting.

Company's Performance and Financial Results

Respected Shareholders,

Fuwang Beverage Industry Limited (FWBIL) is a beverage and food manufacturing industry and it

has commenced production from October 2005.

During the fiscal year 2022-2023, the company's turnover reduced to Taka 3.68 crore, marking a 9.2% decrease from the previous year's Taka 4.05 crore. This decline in turnover resulted net loss after tax of Taka 0.89 crore, compared to the preceding year's loss of Taka 0.75 crore. The primary cause of such gross loss was detected due to high cost of the raw materials and sudden 66.33% surge in utility expenses, more precisely the Gas bill.

Financial Position

The operating financial results for the year ended 30 June 2023 are as follows:

Particulars	30-Jun-23 (Taka)	30-Jun-22 (Taka)	Increase/(Decrease) (Taka)	Increase/(Decrease) %
Turnover (Net)	36,800,567	40,528,990	-3,728,423.29	-9.20%
Gross Profit	-1,826,866	517,341	-2,344,206.56	-453.13%
Net Profit/Loss Before Tax	-8,714,844	-7,220,738	-1,494,105.69	20.69%
Net Profit/Loss After Tax	-8,935,647	-7,463,912	-1,471,735.09	19.72%
Net Assets Value Per Share (NAV)	-309.648	-216.66	-92.99	42.92%
Earning Per Share (EPS)	-89.36	-74.64	-14.72	19.72%

Independent Auditor's Report to the Shareholders of Fu-Wang Beverage Industry Limited

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of Fuwang Beverage Industry Limited, which comprise the statement of financial position as at 30 June 2023, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 30 June 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Qualified Opinion

- (i) **Refer to Note-5, Accounts Receivable** of BDT. 1,164,009, we have sent balance confirmation for accounts receivable of BDT. 1,660,785, against which we received responses for BDT. 678,366 (40.85% of balance confirmation sent). Hence, the difference between the above-mentioned balance i.e. BDT. 982,419 remains unverified and unconfirmed to the extent the responses were not forthcoming. However, this is to be noted that a provision for bad debt was recorded amounting BDT. 877,608 post to our balance confirmations to the suppliers.
- (ii) **Refer to Note-10, Current Liabilities and Provision** of BDT. 189,911,285, as for Sundry Creditors (Others) of BDT. 5,914,468, we sent balance confirmation covering BDT. 5,501,385, against which we received responses for BDT. 258,100 (4.69% of balance confirmation sent). Hence, the difference between the above-mentioned balance i.e. BDT. 5,243,285 remains unverified and unconfirmed to the extent the responses were not forthcoming.
- (iii) No deferred tax was reported in the financial statements, a non-compliance of IAS-12 Income Taxes.
- (iv) No Fixed Asset register was maintained containing details such as item-wise cost price, book value, tag no., person in charge, condition etc. Also, as the assets were not tagged, we were unable to carry out a physical inspection of the same. The net book value of property, plant and equipment as at 30 June 2023 is BDT. 109,321,845.
- (v) **Refer to Note-10, 'Current Liabilities and Provision'**, For the subsidiary, BDT 40,100,000 was reported as 'Deposit against share by holding company' in the financial year 2020-21, which was transferred as a liability with the holding company in Note-10 'Current Liabilities and Provision' in the financial year 2022-23. As per gazette # 146/GdAviwm/cOkvt/cOÁvcb/2020/01 dated 11th February 2020, any money received as Share Money Deposit (SMD) or whatever name, included in the Equity, is not refundable. The money received under SMD should be converted into Share Capital within 6 months of receipt of the money. However, it is reported by management that as no receipt of money from the holding company against the said shares was evident, it is adjusted as an intercompany transaction. Also, despite the figure is constant for over 12 months, the figure is reported as current assets and current liabilities instead of non-current liabilities/assets.

- (vi) As per section-99 of Bangladesh Labor Act 2006 (as amended in 2015), for an establishment with 100 permanent workers, the employer is to arrange group insurance for its employees. The company has not introduced any group insurance for its employees; a non-compliance of the Bangladesh Labor Act.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and we have fulfilled our responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Responsibilities of Management and Those Charged with Governance or the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, the Companies Act, 1994 and other applicable laws and regulations and for such internal control as management deems necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with the mall relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994, we also report that except for the effects of the matters described in the Basis for Qualified Opinion section of our report:

- a) We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books; and
- c) The statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account.

2.1.6 Functional and presentation currency

Functional and presentation currency items included in these financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). These financial statements are presented in Bangladesh Taka ("BDT") which is also the functional currency of the company. The amounts in these financial statements have been rounded off to the nearest BDT except otherwise indicated.

2.1.7 Use of estimates and judgments

The preparation of financial statements in conformity with International Financial Reporting Standards and International Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and for contingent assets and liabilities that require disclosure, during and at the date of the financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions of accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected as required by **IAS 8: Accounting Policies, Changes in Accounting Estimates and Errors**.

2.1.8 Materiality, aggregation and offsetting

Each material item as considered by management significant has been displayed separately in the financial statements. No amount has been set off unless the Company has legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards. The values of assets or liabilities as shown in the statement of financial position are not off-set by way of deduction from another liability or asset unless there exist a legal right therefore. No such incident existed during the year.

2.1.9 Going concern assumption

As per IAS-1 para 25, a company is required to make assessment at the end of each year to assess its capability to continue as a going concern. Management of the Company makes such assessment each year. As per management assessment there is no material uncertainties related to events or conditions which may cast significant doubt upon the Company's ability to continue as a going concern.

2.1.10 Reporting period

The reporting period of the company covers 12 months from 01 July 2022 to 30 June 2023.

2.1.11 Comparative information

Comparative information has been disclosed in respect of 01 July 2022 to 30 June 2023 in accordance with IAS 01: Presentation of Financial Statements for all numeric information in the financial statements and also the narrative and descriptive information where it is relevant for understanding of the current periods of financial statements. Prior year figure has been rearranged wherever considered necessary to ensure comparability with the current year.

2.2 Significant accounting policies

2.2.1 Property, plant and equipment

Recognition and measurement

An item shall be recognized as property, plant and equipment if, and only if it is probable that future economic benefits associated with the item will flow to the entity, and the cost of the item can be measured reliably.

Property, Plant and Equipment are stated at their cost (Fair value for Building & other construction) less accumulated depreciation in accordance with IAS 16 "Property, Plant and Equipment".

The cost of an item of property, plant and equipment comprises its purchase price, import duties and non-refundable taxes, after deducting trade discount and rebates, and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the intended manner. The cost also includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term debt availed for the construction/ implementation of the Property, Plant and Equipment, if the recognition criteria are met.

The cost of self-constructed assets includes the cost of material and direct labor and other costs directly attributable to bringing the assets to a working condition inclusive of inward freight, duties and non-refundable taxes for their intended use.

Subsequent costs

The subsequent expenditure is only capitalized as part of assets when the useful life or economic benefit or both of that asset is increased provided that it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of day to day servicing of property, plant and equipment are recognized in the Statement of Profit or loss and Other Comprehensive Income as 'Repair and Maintenance' when it is incurred.

Depreciation on Non-current assets

Depreciation is provided to amortize the cost of the assets after commissioning, over the period of their expected useful lives, in accordance with the provision of IAS 16 Property, Plant and Equipment. Depreciation is charged on additions made during the year for the full year in which those assets are put into ready for use and on which depreciation is charged on Straight line basis. Depreciation is charged on all the fixed assets except land and land development cost at the following rates according to the estimated life disclosed in the valuation report.

Categories of Property, Plant & Equipment's	Rate of Depreciation
Factory building and other construction	2.50 to 5%
Plant and machinery	5%
Office equipment	20%
Furniture and Fixtures	10%
Other assets	10% to 20%

Depreciation methods, useful lives and residual values are reviewed after each reporting period.

Revaluation of property, plant and equipment

As per IAS 16: Property, Plant and Equipment paragraph 34, "the frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Some items of property, plant and equipment experience significant and volatile changes in fair value, thus necessitating annual revaluation. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. Instead, it may be necessary to revalue the item only every three or five years".

Impairment

The carrying amounts of property, plant and equipment are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated to determine the extent of the impairment loss, if any. Impairment loss is recorded on judgmental basis, for which provision may differ in the future periods based on the actual experience.

Disposal of property, plant and equipment

An item of Property, Plant and Equipment is removed from the statement of financial position when it is disposed of or when no future economic benefits are expected from its use or disposal. The gain or loss on the disposal of an item of Property, Plant and Equipment is included in the statement of profit or loss of the period in which the de-recognition occurs.

2.2.2 Trade and Other Receivables

This is considered good and collectible and therefore, no amount was written off as bad debt and necessary provision is made for bad debts.

2.2.3 Advance, Deposits and Prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to the statement of profit or loss and other comprehensive income.

2.2.4 Inventories

Inventories comprise raw material, finished goods and packing materials which are stated at the lower of cost and net realizable value on consistent basis in accordance with IAS 2. Net realizable value is based on estimated selling price less any further costs expected to be incurred for completion and disposal.

2.2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds as per IAS 23: **Borrowing Costs**.

2.2.6 Authorization date for issuing financial statements

The financial statements were authorized by the Board of Directors on 28 October 2023 for issue after completion of review.

2.2.7 Revenue from contract with customers

The Company recognizes as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange of services when (or as) it transfers control to the customer. To achieve that core principle, IFRS-15 establishes a five-step model as follows:

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognize revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognizes revenue when (or as) the Company satisfies a performance obligation by transferring a promised service to a customer. Service is considered as transferred when (or as) the customer obtains control of that service. Revenue from sale of service is measured at the fair value of the consideration received or receivable net

of returns and allowances, trade discounts, rebates and Value Added Tax (VAT). Where the amounts received or receivable from customers exceeded the revenues recognized for contracts, contract liabilities or advance billings are recognized in the statement of Financial Position as Unearned Revenue. Contract liabilities or advance billings are recognized as revenue when services are provided to customers satisfying the performance obligation.

2.2.8 Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and with banks on current accounts and deposit accounts which are held and available for use by the company without any restriction. There is insignificant risk of change in value of the same.

2.2.9 Foreign currency transactions

Transactions denominated in foreign currencies are translated into Bangladesh Taka and recorded at rates of exchange ruling on the date of transaction in accordance with IAS 21 "The Effects of Changes in Foreign Currency Rates".

2.2.10 Employee benefits

The company maintains defined contribution plan for its eligible permanent employees. The eligibility is determined according to the terms and conditions set forth in the respective trust deeds and rules. The plan is funded and recognized/approved under Income Tax Ordinance 1984.

(a) Defined contribution plan (Provident fund)

The Company operates a contributory provident fund for its permanent employees. Provident fund is administered by a Board of Trustees and is funded by contributions partly from the employees and partly from the Company at pre-determined rates. These contributions are invested separately from the Company's assets.

(b) Defined Benefit Plan (Gratuity)

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The employee gratuity plan is considered as defined benefit plan as it meets the recognition criteria. The company's obligation is to provide the agreed benefits to current and former employees.

2.2.11 Accruals, provisions and contingencies

(a) Accruals

Accruals are liabilities to pay for services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amounts due to employees. Accruals are reported as part of Trade and other payables.

(b) Provisions

A provision is recognized in the statement of financial position when the company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the reporting date. Where the company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. During the reporting period the company has made sufficient provisions where applicable.

(c) Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will

be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company; or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. At the reporting date the company does not have any contingent asset.

2.2.12 Statement of cash flows

The Statement of Cash Flows has been prepared in accordance with the requirements of IAS 7: **Statement of Cash Flows**. The cash generating from operating activities has been reported using the Direct Method and Indirect Method as prescribed by the Securities and Exchange Rules, 1987 and as the benchmark treatment of IAS 7 whereby major classes of gross cash receipts and gross cash payments from operating activities are disclosed.

2.2.13 Income tax

Income tax expense comprises only current taxes. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity in accordance with IAS 12: **Income Tax**.

Current tax

Taxation is provided in accordance with fiscal regulations applicable. The company is a non-listed company as per the Income Tax Act, 2023. The company qualifies for being treated as a "non Listed Company" for which the rate for tax at 30% or minimum Tax rate 0.60% has been applied for while making provision for income tax.

2.2.14 Events after the Reporting period

2.2.15 Events after the Reporting period

Events after the reporting period that provide additional information about the company's position at the statement of financial position date are reflected in the financial statements as per International Accounting Standards IAS 10: **Events after the Reporting Period**.

All material events occurring after the balance sheet date have been considered and where necessary, adjusted for or disclosed.
